

CUT BETWEEN THE ATLANTIC OCEAN AND THE GIRONDE ESTUARY, THE MÉDOC, ETYMOLOGICALLY KNOWN AS THE 'LAND OF THE MIDDLE', IS HOME TO THE BEAUMONT LANDS, WHICH IN THE 18TH CENTURY WERE LITTLE MORE THAN MOORLAND, HEATHER, MEADOWS AND WILD LAND.

Since its creation in 1824, The vineyard of Château Beaumont has stood out for its exceptional quality.

Its gravelly-sandy hilltops are the ideal growing ground for our Cabernet Sauvignon and Merlot.

Château Beaumont has been recognised as a Cru Bourgeois Supérieur since the very beginning of the classification process, underlining the consistency and expertise of our teams. Their dedication produces exceptional wines, in accordance with tradition.

## WEATHER CONDITIONS OF THE YEAR

The year began with a mild and particularly wet winter, conditions which favoured early budburst and vigorous development of the vines. The persistent dampness was also conducive to the appearance of mildew, particularly on the Merlots, which required constant vigilance on the part of our teams.

The rather dry summer of 2024 was marked by sunny conditions in August, which enabled the grapes to ripen to perfection. The summer heat was followed in September by sunny days and cool nights, creating ideal conditions for ripening the grapes.

## THE HARVEST

Harvesting began on 19 September and continued until 2 October. This period was marked by a major hail storm that affected some of our plots on 21 September. Our teams reacted swiftly and mobilised quickly to harvest the affected grapes, thus preserving the quality of the vintage.
