Thanks to their hard work, Château Reynon is today one of the most renown Premières Côtes de Bordeaux estate.

### Soils

Deep gravelly soil layers on clayey subsoil top a perfectly well drained hill. At mid-slope the soils are clayey and calcareous and the rock protrudes in some areas. The soils are sandier at the foot of the slope.

### Grape planting

11 ha 100 % Sauvignon blanc

### Blending

100 % Sauvignon blanc

### Wine making and ageing

Hand-harvesting is performed in general in one time and if it's required in 2 selective pickings of golden grapes with an aromatic optimum stage. After an eventual phase of skin contact, a slow juice extraction is performed, protected from the oxidation process. Free run must is strictly separated from press must and their clarification undergoes by natural settling. Fermentation takes place in stainless steel vats. Ageing on lees in tanks last 5 to 7 months before bottling.

#### Tasting

The soil quality, moderate production, fine wine-making process makes it possible to obtain an elegant dry white wine, at once complex and tasty with grapefruit and white peach aromas, with mineral and smoky hints, with a remarkable aging potential in bottle over several years.
